BUSINESS

Truserve Engineers India Private Limited was founded in the Year 2010.

Truserve serves its customers with a wide variety of services to source Casting Products, Forgings, Turn

Key parts and Technical / Engineering Services such as..,

- ✓ Manufacturers of Ball, Gate, Globe, Check, Plug, TMBV, Butterfly, Control Valves for Oil & Gas, LNG (Cryogenic), Industrial, Chemical, Process Industry applications.
- ✓ Pump Manufacturers - Oil & Gas, Process, Agricultural Applications
- ✓ Boiler & Turbine Manufacturers
- ✓ Farm Equipments Manufacturers
- ✓ Structural Hardware Industry
- ✓ Global Sourcing Companies

The Company

Truserve

Manufacturing Process (castings & Forgings)
Truserve Engineers is experienced and qualified
to represent your strategic interests in India.

Our Team Comprising of Experts with rich
experience in Supply Chain, Castings, Forgings
and Machining to understand customer needs
quickly and identifying right source at Right
price and quality.

Strengthes

- ✓ Truserve links Indian Manufacturing expertise of Casting Products, Forgings, Precision Machined Components and the Customer Demand as closely as possible in order to reduce Costs, minimize Business Risk and to meet customer expectations for Performance and Quality.
- ✓ Solutions for Customer's Most Challenging problems in Sourcing of Intricate products with Most Critical requirements.
- ✓ Truserve experts offer a 360-degree view of the Supply Chain management system, from selection of Suppliers to ensure Effective functioning of Supply Chain.
- ✓ We are specialized in establishing Long-term, Efficient Business Relationships viz a Responsive and Cost Efficient Indian Supply Chain.
- ✓ Our team of Project Managers can handle all aspects of Sourcing, Quality, Production and Logistics.
- ✓ work with customers on Cost Saving projects through Value Engineering and Innovation.
- ✓ We are extremely sensitive to the confidential nature of Client Data and are committed to maintain the Trust of Our Customers.
- ✓ We ensure product excellence by routinely Evaluating, Monitoring and Auditing our Strategic Partners and Suppliers for Continuous Improvement.

Our objective is to provide quality products and outstanding service to reduce the total cost of product sourced and ensuring compliance to quality with adherence to On-time Delivery.

- Commitment to technical excellence.
- High quality and cost effective solutions.
- Highly qualified and practiced Engineers.
- Energetic and immensely talented management.
- Access to the latest and World's best practices of casting technology.

Truserve Quality Assurance

- ✓ Our Team and associates are familiar and experienced with Internationally followed quality standards Like ASTM, ASME, ANSI, DIN, EN, JIS, BSI, etc.
- ✓ Our Quality Inspectors are Certified according to ASNT SNT TC – 1A & EN 473 PED - LEVEL – II for various 'NDT – Non Destructive Testing of Materials' like Radiography / X-ray, Ultrasonic Test, Liquid Die-Penetrant Examination, Magnetic Particle Inspection & Visual Inspection.
- ✓ We do 100% witnessing of all Casting, Forging and Machined parts Quality Checks right from Incoming Raw Material till Final Inspection Including NDT tests i.e. LPI, MPI, RT, UT, Dimensional Inspection, Visual Inspections, Packing, Quality Documentation, etc.
- ✓ We are closely associated with ASNT / EN LEVEL – III Certified Inspectors for clarifications and guidance.
- ✓ We develop and source quality components from competitive and qualified manufacturing facilities in India taking responsibility for Quality, Cost and Delivery.
- ✓ We source and purchase on your behalf, rather than 'selling' to you.

Services

We develop and source Quality components from competitive and qualified manufacturing facilities in India taking responsibility for Quality, Cost and Delivery. We source and purchase for you, rather than 'sell' to you. We offer the following services to Customers..,

1. Supply Chain Management (SCM) Services:

- Supplier Identification
- Supplier Evaluation
- Survey and Audit
- New Product Development
- Total Quality Management (TQM)
- Sample Approval and Clearance for Production
- Delivery Assurance
- Expediting of Orders
- Corrective Action Management.

2. Quality Assurance and Inspection Services

- First Article / Sample / Prototype / Source Inspection
- Product Verification as per Buyer Requirements
- Foundry, Forge shop and Machining facility – System & Process Audits
- Supplier Surveillance audits for Specific Project Requirements
- Sub-Supplier Qualification & Audits

Services

3. Technical Services

- KPO – Knowledge Process Outsourcing.
- 3D Modelling using Catia, Pro E, Solid Works, Auto Cad.
- Conversion of Old Prints & Drafting of 2D drawings using Solid Works, Auto Cad.
- Reengineering based on the Sample part.
- Design of Toolings – JIGS, Fixtures, Dies, Foundry Patterns.

4. Sourcing Services

| Manufacturing Process | Internation Standards | Material Grade | Size / Weight Range | Remarks |
|---|-------------------------|---|--------------------------------|--|
| Sand Castings (Hand Molding / Machine Molding) | ASTM, DIN, EN, JIS, etc | Carbon, Stainless, Duplex, Nickel & Cobalt Based Super alloys, Stellite | 1 Kilogram to 12,000 Kilograms | As Casted /Pre Machined / Fully Machined |
| Sand Castings (Hand Molding / Machine Molding) | ASTM, DIN, EN, etc | Cast Iron, Grey Cast Iron, Spheroidal Graphite Iron Castings | 1 Kilogram to 10,000 Kilograms | As Casted /Pre Machined / Fully Machined |
| Sand Castings (Hand Molding / Machine Molding) | ASTM, DIN,EN, etc | Brass, Aluminum Bronze, Aluminum Alloy Castings | Few Grams to 100 Kilograms | As Casted /Pre Machined / Fully Machined |

Services

| Manufacturing Process | Internation Standards | Material Grade | Size / Weight Range | Remarks |
|-------------------------------|--------------------------------------|---|--|--|
| Shell Molded Castings | ASTM, DIN, EN, JIS, etc | Carbon, Stainless, Duplex, Nickel & Cobalt Based Super alloys, Stellite, Cast Iron, Grey Cast Iron, Spheroidal Graphite Iron Castings | Few Grams to 30 Kilograms | As Casted /Pre Machined / Fully Machined |
| Investment Casting (Lost Wax) | ASTM, DIN, EN, JIS, etc | Carbon, Stainless, Duplex, Nickel & Cobalt Based Super alloys, Stellite | Few Grams to 70 Kilograms | As Casted / Fully Machined |
| PDC - Pressure Die Casings | ASTM, DIN,EN, etc | Aluminium Alloy Grades | Few grams to 10 Kilograms | As Casted / Fully Machined |
| GDC - Gravity Die Castings | ASTM, DIN,EN, etc | Aluminium Alloy Grades | Few grams to 300 Kilograms | As Casted / Fully Machined |
| Open Die Forging | ASTM, DIN, EN, JIS, etc | Carbon, Stainless, Duplex | Upto 8000 Kilograms | As Casted /Pre Machined / Fully Machined |
| Closed Die Forging | ASTM, DIN, EN, JIS, etc | Carbon, Stainless, Duplex | Upto 400 Kilograms | As Casted /Pre Machined / Fully Machined |
| Machined Parts (Turnkey) | ASTM, AISI, ANSI, EN, DIN, JIS, etc. | Precision Machined parts made out of Bar Stock / Forgings with special process like Surface Coatings, Heat Treatment, Stellite welding, etc... in all ferrous and | "Upto 1000 Kilograms 1000MM X 1000MM X | Fully Machined |
